Report Detail

1. Is there a history of using a hand-held, vibrating, percussive, industrial tool **on more days than not**, on a regular basis?

A vibrating, percussive, industrial tool can be a pneumatic or power tool commonly used in an industrial setting which imparts vibration and impact force to the joints of the upper limb.

☐

No

☐

Yes - Please indicate the periods of time when this happened, and give a brief description of the activities involved.

Dates	Type of tool used and Duties and activities performed
/ / to / /
