Report Detail

A claim for service related compensation in respect of the above named requires the Department to consider traumatic injury, including surgical trauma, that results in acute and permanent neurological sequelae involving the brain, spinal cord or cauda equina as a factor in this case. Would you please answer the following questions:

1. Has the veteran sustained a traumatic injury, including surgical trauma, that results in acute and permanent neurological sequelae involving the brain, spinal cord or cauda equina?
☐ **No** - Please sign the form and return it to the Department
☐ **Yes**
2. When did this traumatic injury occur and what was its cause? Please be as specific as possible; if surgery was involved include details of the condition being treated.

	/	/

3. What were the acute and permanent neurological sequelae of the traumatic injury?
